Rick,

The plan for the critical publications indicates that the first submission of a manuscript (re cytotoxicity) is planned for April 2003. To my knowledge nothing has been published to date.

Roger

Subject: RE: Release of SCoR

Roger and Debbie,

before I respond, do we have any publicly available testing info on prototypes in the SCoR program? (or some things that are going to be presented very soon?)

thanks,
rick

Subject: Release of SCoR

Dear Rick:

We've never met, but we've been at some meetings together, including one or two of the open IOM tobacco harm reduction meetings (I was a committee member) and the NCI tobacco harm reduction meeting. I have some questions about SCoR. Can you tell me when it will be released? Will it be a national roll-out or only in test market(s)? Also, is there anything you can share about it's toxicity and carcinogenicity -- i.e., about the testing you've done on it? As you know, I have great interest in PREPs and am very curious about the product.

Thanks for considering this request,
Gary Giovino
